## To our valued customers using Our Tools

Since 1st of July, 2006, we have supplied following products as \*1 environmentally compatible products, but unfortunately have found minor issue with the parts equipped with our tools that the amount of Hexavalent chromium contained in the plating exceeds the allowed limits in the NITTO KOHKI Group Green Procurement Standard.

We herewith report to you details and apologize for any inconvenience caused on this matter, However there will be no effect on the performance of the products that you are using now. Products that are described in this notice is a Japanese domestic use product. For more information, please contact us anytime.
