

August 6, 2020

To our valued customers using our Power Tool products

We have been selling the following listed products as *1Environmental Products but confirmed that some of the parts (BLADE) for these products contain "Perfluorooctanoic acid (PFOA)" (CAS No. 335-67-1) in an amount exceeding the limits determined in the Nitto Kohki group companies' Green Procurement Standard.

We herewith inform you and apologize for the inconvenience caused on this matter.

There is no effect on the performance of the products that you are using now. However, if the subject products or its parts are to be exported to the EU region, they will need to be dealt in accordance with the EU POPs Regulation, applied to EU member countries from 4 July 2020. In such case, please contact below.

The subject products and parts are as follows.
